

This is an app of an ePortfolio for me, Jaret Smith. Click the More Information button to be taken to a table of five categories called ePortfolio Information. Click one of the right arrows in a row to be taken to a screen containing information about that row. Click the GitHub button to be taken to my GitHub website. If you ever want to go back, click Back/ePortfolio Information on the top-left corner. Some of the other views have tables, but the rows do not lead anywhere.
