

This is an app where the user can find a Cerebral Palsy specialist near them. You can register by putting in a valid email, password, and your name. If you click on the About the Creator button, you can read about the creator. Slide down on the page to return to the login screen. When you sign in, you can see your user profile. You can also add a profile picture by adding one from your gallery or using the camera. Save by pressing the Save button. Press Sign Out to sign out. When you click on the map button, you will be taken to a map screen with a back button to go back to the user profile. On the map, there are annotations containing your location and Cerebral Palsy specialists. Click on one of the annotations to be taken to a table of available times. Click on one of the annotations to be taken to a button that you can press to confirm the appointment or you can press the back button to go back to the map. Once you confirm the appointment, you will be taken back to your user profile and the appointment will show up. The appointment will show up as “Taken” in the profile and it cannot be clicked. If you want another appointment instead, click on an available appointment. All appointments labelled as “Taken” will show up as “Taken” for other users.

About the Creator

My name is Jaret Smith. I have Cerebral Palsy. I created this app so that others with my disability will be able to find the help and care that we need. I eventually want to incorporate this idea into a much bigger one.
